EXHIBIT GUIDELINES

General, 2-D

- No sawtooth hangers will be permitted.
- Unframed artwork mounted on foam core or similar board is NOT ACCEPTABLE
- Pastel, graphite, charcoal, or other medium that smudge must have a fixative/sealer applied.
- For works over 8” x 10”, proper, stable wiring or secure D-Hooks (mostly for heavy works) are required.
- Wires must be securely fastened with no sharp ends (tape if necessary).
- Works 8” x 10” or smaller do not require wiring, only if the work is able to easily be hung on a nail.

Framed Works

- Frames must be in good condition. This means they are in stable condition (No cracks or chips to frame, corners should be tight, and should not be wobbly), and securely house the work, by clips, nails, anchor points, etc. Works taped to frames must be presented professionally...meaning taped neatly and securely affixed to the frame. Painter’s tape is intended for paint masking, not the professional securing of works to a frame.
- Mattes must be clean and free of debris, such as hair, dirt, bugs, etc. Glass/Plexiglas should be clean of glue, residue, and smudges.
- Non-canvas works displayed in frames/mattes must be backed with support board, to stay flat in the frame and keep from buckling. “Wrinkled” or loose work will not be accepted.

Canvases

- Unframed canvas must be gallery wrapped (stapled on the back side so as to not be visible). Visible staples will not be acceptable.
- Simply taping over stapled sides will not be accepted. If the canvas is not gallery wrapped, frame it.
- Canvas sides do NOT need to be completely painted to match with the painted image, nor painted a solid color. You have artistic license and freedom of expression in this regard. Showing the continuation of brush strokes, etc. is allowed.
- Stretched canvases should be taught, and corners should not buckle.
- The canvas stretcher bars should be stable and secure.
- Paintings must be dry. NO WET WORKS will be accepted.

Photography

- All photography should be protected, either under Plexiglas, glass, etc., and framed.
- Photography printed on canvas follows same rules as Canvased works
- No free-hanging photographs mounted on foam core or similar board is acceptable.

Jewelry

- Jewelry must have components that are stable and secure.
- Artist must make some of the components of the jewelry. No assembling of misc. prefabricated pieces (i.e. no strung beads). We are looking for art jewelry.
- The main focus of the piece must be the part(s) of the artist’s creation.

Sculpture/3-D Works

- Works must be stable and secure
- For works that may be considered hazardous (i.e. sharp objects), artist must supply protective casing (i.e. Lucite box, etc.)
- For installation works, or works that require special handling/setup, the artist is required to be available when the curator sets up the exhibit, to handle the placement/installation of such work.

Liability - Every care will be exercised in handling of all works submitted. However, the Broward Art Guild will not be responsible for loss, claims or damages resulting from exhibiting your work. Insurance is the responsibility of the artist.
