**"Silver Metal Clay"**

**Torch-Fire 99.9% Pure Silver** *(Precious Metal Clay)*

with Artist, Teena Art Teacher

**No Experience Necessary!**

So what is Silver Metal Clay? Microscopic silver metal particles are mixed with purified water and an organic binder (like cork). Then the pliable material is shaped in a way similar to ceramic clay, rolled, formed, stamped, textured, formed into a shape and cut. When the final designed piece is dried and fired with a torch until the binder burns off, the result is a solid metal, 99.9% hallmark quality silver, original work of art. An infinite range of designs, forms and textures are easily attainable in Silver Metal Clay with your fingers and inexpensive tools, designs that would be very laborious and even unattainable with traditional metal-smith techniques.

---

**When:** Saturday Afternoon, February 8th 1:00pm to 4:00pm **register soon - class space limited**

**Cost:** BAG Members $85, Non-BAG Members $95 *(all supplies included)*

**Location:** Broward Art Guild 3280 NE 32nd Street, Fort Lauderdale, FL 33308

1 block north of Oakland Park Blvd bridge on east side of Intracoastal — west of A1A - Metered Parking $.50 per hour

**Workshop Notes:** If possible bring tweezers, small sharp knife (No aluminum), and wear your glasses!. Bring something to tie you hair back (we’ll be using a torch!) and don’t use hand lotion before class.
